Annual Report 2020

Our activities in what was left of the year 2020 were related to our founding in March and **complicated by** the conditions of **the Corona pandemic**.

We chose Deutsche Bank for the opening of the bank account and suffered from their Corona-related processing backlog. We had to wait for the account number and our account until the end of June. The successful opening of our account with Deutsche Bank was confirmed to us on June 23, 2020.

From the beginning we had chosen Telekom Deutschland GmbH for the telecommunication services for our office in Spichernstraße 15, but had to wait until the end of September 2020 for their order confirmation/agreement to debit the costs for these services from the Foundation's account. On September 26, 2020, the access data valid for our office were sent to us and the assembly/installation on site was finally carried out by Telekom on October 2, 2020.

For the transfer of the real estate to the Jemal Nebez Foundation, the administrator of the property had to be given several deadlines, which then were extended, until our Notary could finally report the successful completion in a letter dated October 2, 2020 and document the land register entries with the name of the Jemal Nebez Foundation.

Furthermore, the time after the founding on March 31, 2020 was characterized by **renovations** of our **office** and the construction of the **library**. At the time of the founding, the apartment intended for rent had only recently been completed and rented. The contents of the apartment and the estate of our namesake were initially stored temporarily.

After the founding, new conditions were created at the headquarters, furniture was moved, shelves were moved and set up, and moving boxes were unpacked.

The office equipment was rearranged and several workplaces were created.

The location of the shelves belonging to the library was determined and the books - arranged according to languages - were set. Cataloguing of the periodicals was started.

.../2

In 2020 we also worked on the **Internet presence** of our Foundation. On July 21, 2020, a contract was signed with Telekom Deutschland GmbH for the creation of a website. In the first three months, which were free of charge, we became acquainted with the modular system of this website. Then we worked with the Telekom web designer on the draft. We provided the texts, illustrations and translations. Finally, on December 28, 2020, our website was launched in 4 versions: in German, English and in Kurdish, in Latin and Oriental letters.

From December 1, 2020 our Foundation has had an **employee** who is registered with the Federal Employment Agency. He is responsible for the office management in the broadest sense, including the organization of volunteer staff, which is closely related to the development of the support group.

Due to the aggravated conditions caused by the Corona pandemic, we unfortunately had to cancel the **first annual meeting** of the foundation, initially scheduled for December 6, 2020.

The **revenues** and **expenses** of the Jemal Nebez Foundation can be found in the annual financial statement.
